The cost of building and equipment is estimated at Rs 10,303. this is non-recurring initial cost. nothing has been mentioned by the Convent authorities about recurring cost.

The Inspector recommends a two thirds grant. He has no funds for it. we have no funds beyond what are provided in the budget. we cannot now say if any savings would accrue about the close of the year either under 'Education' or other heads.

If the Resident decides to give a two thirds grant, $\frac{2}{3}$ of 10,303 or Rs. 6868 would be required but this is subject to any alteration which the Garrison Engineer may suggest as regards the building estimates.

His

This grant can be paid about the close of the current year if any savings accrue or if the amount is included in the next year's budget which is now under preparation it may be paid next year.

Before sanction is accorded the Pay & Accounts Officer will be consulted as to whether the grant is admissible under chapters VI & VII of the Grant-in-Aid code for Indian Schools.

Dated 27th August 1926.

From (Name) H. F. Saunders, Esq., M. A.,
(Designation) Inspector of Schools,

To The Secretary to
the Hon'ble the Resident in Mysore,
Bangalore.

Sir,

I have the honour to forward herewith plans and estimates for the building and equipment necessary for starting a Weaving School in the Convent of the Good Shepherd.

2. This Institution is already providing a certain amount of industrial training, but hitherto weaving has only been carried on at the Branch at Binnimangalam, where labour is scarce and other difficulties militate against the success of the work. There is no doubt that if the Weaving School were brought in to the Convent itself, the work could be better carried on in every way and could be developed into something much better than it is at present.

3. When the matter was first put before me, I had to say that I was unable to promise any help, for want of funds, but I understand that since then the Hon'ble the Resident has been directly approached, and these plans and estimates are submitted in view of the interest which he evinced in the proposal though I understand that no definite promise of grant has been given.

4. If it is possible for funds to be found for a grant, building plans may kindly be sent to the Garrison Engineer for his remarks before the amount of the grant is fixed.

As regards the apparatus, I have no means of knowing

prices of the various items, but I gather that those shown are based on the cost of articles now used at Binnimangalam.

5. The site selected is rather near latrines and bath-rooms, but seems to be the best available for the purpose in the Convent area.

6. The papers are submitted for favourable consideration, and with the recommendation that if funds are available a grant up to two-thirds of the cost may be given.

7. It may be noted that the present application deals only with the initial non-recurring cost, and nothing is said as to recurring charges. I presume the idea is to try and make the school self-supporting, though we may be asked for some help in the early stages.

I have the honour to be,

Sir,

Your most obedient servant,

H.T. Saunders.

S.4 With reference to your letter No:7911/159-1926 dated the 14th: September 1926, the plan and estimate for the above are returned herewith with the following remarks:-

not available in Office

As the length of the room is 100' and not cross connected, it is suggested that buttresses should be built on the outside, say 4 on each side, vide para 5 under Superstructure and page 8 of the new M.E.S. handbook.

Common rafters should not be spaced more than 2' to suit the market size of battens viz: 2" x 1".

The size of purlin and ridge should be 3"x 7" and that of principal rafter 4" x 4".

Burnt brick in lime should be used at tops & bottom of walls and at ~~junction~~ jambs of all openings.

It is preferable to use cuddappah slabs on concrete instead of on clay.

The rates are reasonable on the whole.

Station Bangalore. *Dated the* 7th October 1927

From (Name) J. A. Yates, Esq., M. A.,

(Designation) Inspector of Schools, Coorg & Bangalor

To The Secretary to the ~~Government of Madras~~
Hon'ble the Resident in Mysore,
Bangalore.
~~Department~~

Sir,

8.9

I have the honour to invite your attention to the correspondence ending with your No. 842/159-26, dated 26-1-1927, in connection with the grant towards the construction of a buildi and purchase of equipment for the weaving school in the Good Shepherd Convent, Bangalore.

2. The Correspondent reports that the work has been completed and I enclose herewith the completion certificate furnished by the Executive Engineer, Station Municipality, Bangalore. Out of the grant of Rs.7,630/- sanctioned, an advance of Rs.4,668/- was paid in my No. 793/1-24, dated 21-3-1927, a copy of which was forwarded to you. The Correspondent now asks for the payment of the balance, Rs.2,962/-. I, however, find that in view of the numerous applications for grants for

5 12

building and furniture received and sanctioned this year, it will not be possible to spare any amount from the allotment for building and furniture grants under "Education". I am also not certain that there will be sufficient savings under other heads of the Educational Budget. I shall therefore be obliged if you will kindly have the necessary transfer made from some other head of the budget. I would point out that grant on the weaving shed does not properly come as a charge on the Educational Budget; it is not an industrial school, that comes under my control.

3. The Correspondent has applied for an additional grant for extension to the shed. I enclose a copy of her letter, together with copies of the plan and estimate. I am sending the duplicate plan and estimate for the Executive Engineer's opinion. If the Hon'ble the Resident considers that the additional grant should be given, funds will have to be found for it also.

I have the honour to be,

Sir,

Your most obedient servant,

Inspector of Schools,

Coorg and Bangalore.

Certified that the weaving shed in the Good Shepherd Convent, has been completed satisfactorily.

EXECUTIVE ENGINEER.

28/1/39.

Letter dated 3-9-1927, from the Correspondent, St. Euphrasia's School, Bangalore, to the Inspector of Schools, Coorg and Bangalore.

I have the honour to state that owing to a miscalculation on the part of the contractor, the weaving shed which has just been constructed is not large enough to hold all the looms and machinery we have. We are therefore submitting plans and estimates for an extension, and beg you kindly to consider the application.

We regret the mistake that has been made and the trouble thereby given and we request you to recommend the sanction of an additional grant to enable us to carry out the work which is very urgent.

We have already obtained permission from the Executive Engineer for the construction of the building.

Trusting you will favourably consider the application
